

Science Center 350

Projector Remote

To turn projector on, press the ON button in the upper-left corner of the Projector Remote. Allow the projector about 30 seconds to warm up.

To view a VHS cassette, press the VIDEO button.

To view the computer monitor, press the DATA1 button.

The amplifier controls all audio.

To hear audio from the VCR, press the VCR button on the amplifier.

Currently and unfortunately, one cannot have audio from the computer go through the speaker system.
