# The Chancellor's Graduate Fellowship Program

## **ELIGIBILITY/AREAS OF**

**STUDY:** The Chancellor's Graduate Fellowships have been designed to facilitate training for students who will contribute to diversity in graduate education and who are interested in becoming college or university professors. Students will be selected who, in light of all pertinent academic qualifications, experiences, and attributes, would contribute to the diversity of graduate education at Washington University. The University believes that student body diversity entails many dimensions, and is advanced on campus by having a broad variety of cultural, socioeconomic, gender, racial, ethnic, geographical, philosophical/religious, and other distinctive backgrounds and perspectives (e.g., first generation college graduates, experience facing personal or financial hardship). Students must have earned or be in the process of earning an undergraduate degree from a U.S. institution. Students must be admissible into any of Washington University's programs which provide final disciplinary training for prospective college professors. Eligible programs include students who are admissible into the Doctoral programs in Arts and Sciences, Business, Engineering, Social Work, and the Master's programs in Art, Architecture, and Writing.

**FELLOWSHIP TERMS:** Doctoral candidates making satisfactory academic progress will receive, for five years, stipends and allowances at \$27,500 per year plus full tuition scholarships, with a total value in excess of \$120,000 per Fellow.

Fellows in non-doctoral programs will receive awards competitive with grants available nationally in their disciplines.

## **PROGRAM COMMUNITY ACTIVITIES:**

The Fellows will meet as a community on a regular basis to discuss trends and activities within their various disciplines. Scholars will lead discussions on a multitude of topics and the Fellows will participate in an annual conference which will include national and local scholars, leaders from the St. Louis and regional communities, and members of the greater Washington University faculty and student body.

## **APPLICATION DEADLINES:**

January 15, application to degree program – unless degree program has indicated a different application deadline date (refer to respective department website) – and January 25, application to the Chancellor's Graduate Fellowship Program.

## **FOR MORE INFORMATION PLEASE CONTACT:**
